PROFESSIONAL SUMMARY

Motivated BCA student and web developer with practical experience architecting full-stack web applications, interactive user interfaces, and 3D web visualizations. Co-developer of *Creative Touch Interiors*, an enterprise-grade PHP/MySQL and Three.js platform. Proficient in HTML5, CSS3, JavaScript, PHP, MySQL, and modern frontend design, with strong analytical problem-solving abilities and dedication to clean, maintainable software architecture.

TECHNICAL SKILLS

Languages & Core:	JavaScript (ES6+), PHP 8.x, HTML5, CSS3, SQL, Python (Basics)
Frameworks & 3D:	React.js, Three.js (3D Spatial Canvas), GSAP Animations, Chart.js, Node.js & Express (Basics)
Databases & Backend:	MySQL, MongoDB, Relational Schema Design, RESTful APIs, Session Auth & Bcrypt
Tools & Workflow:	Git, GitHub, VS Code, Apache / XAMPP, Postman, Chrome DevTools, Responsive Web Design
Spoken Languages:	Gujarati (Native), Hindi (Fluent), English (Professional & Technical Proficiency)

FEATURED PROJECTS

Creative Touch Interiors — Enterprise Interior & Spatial Platform

Co-Developer | *PHP • MySQL • Three.js*

GitHub: github.com/chotaliyaharsh2404-hash/creative_touch_interiors

- Co-engineered an enterprise interior design management platform with Three.js 3D spatial scenes and GSAP smooth interactions.
- Built an interactive room-by-room dynamic quotation estimator (consultation.php) calculating dimensions, materials, and area totals.
- Created automated server-rendered printable PDF proposals (quote_pdf.php) with structured financial breakdowns.
- Implemented 3-Tier Role-Based Access Control (Super Admin, Admin, Receptionist) and automated self-healing database schema migrations.

Online Movie Ticket Booking System — Full-Stack Concept

Developer | *React.js • Node • MongoDB*

- Developed an interactive cinema ticket booking web application with showtime selection and auditorium filtering.
- Designed visual seat map selector with real-time ticket counting, dynamic pricing calculations, and confirmation passes.

Developer Portfolio & Personal Brand Experience

Developer | *HTML5 • CSS3 • JavaScript*

- Built a high-performance personal portfolio featuring Electric Indigo glassmorphic UI, live IST clock, and 3D card tilt.
- Integrated live skill search, interactive cinema seat simulator, and client contact form with prefilled inquiry chips.
